- ◆ Digital Signage / Video Messaging
- ◆ Eco Friendly colour changing LED Lighting
- ◆ Radio Microphone Systems
- ◆ Classroom Audio / Soundfields
- ◆ Paging Systems / Public Address
- ◆ Audio Systems for the hearing impaired
- ◆ Portable Staging
- ◆ Sensory Rooms and Interactive Classrooms

Our Philosophy:

Ease of use

Adaptable

Simple solutions

Inexpensive and in budget

Our aim is to provide you with 'best value' solutions for installed and portable systems or a mixture of both. From Nursery Schools to Universities, whatever the budget, we can design a system for you.

Quality

We realise lower cost solutions may be available from non-specialist suppliers. In our experience these solutions don't always result in the best value. A Clarity installed system will stand the test of time, particularly in an education environment.

We understand education and our attention to detail coupled with the high quality of workmanship we insist upon from our installation engineers ensures you achieve the maximum return on your investment

Our Products

In our designs we use professional products from leading manufacturers, chosen for their merit, reliability and sustainability. We do not use domestic products as experience tells us they are unreliable in a school environment and our systems are built to last. As an independent company we are not tied to any brand or product and this allows us to be completely unbiased in our choice of equipment. Brands that we use include: **Bose, Denon, ETC, Martin Audio, Sennheiser, Shure, Strand, QSC and Zero 88.**

Thinking Ahead...

During the consultation and discussion stage we take into consideration as much as we can to make sure your system is tailored to provide the maximum benefit. We go to great lengths to ensure every conceivable requirement is incorporated into our designs; taking into account, for example, that a room might occasionally be set up for use in an alternative direction or an area used on a daily basis might also be hired out. We provide options which allow for any future expansion of your system.

We discuss your curriculum and non-curriculum needs and provide you with system designs tailored specifically to your requirements.

Performance Areas

We specialise in:

- ◆ *School halls*
- ◆ *Drama and Dance studios*
- ◆ *Lecture theatres*
- ◆ *Atria and communal spaces*
- ◆ *Music rooms*
- ◆ *Practice rooms*
- ◆ *Recording studios*
- ◆ *Television studios*
- ◆ *Interactive classrooms*

Nationwide/ International coverage

Our engineering teams, located throughout the U.K, provide nationwide coverage and support. We regularly provide our services to overseas schools.

After Sales Support

We have a knowledgeable team, available by telephone or email, to provide you with dedicated after sales support, advice and service.

Our installed systems include a 12 month extendable on-site warranty.

Budget

Clarity systems are designed to meet most budgets and in some instances we can incorporate suitable existing equipment. We are happy to talk to you as soon as a requirement is identified. Early planning can lead to cost savings and your outlay may not be as much as imagined. Leasing options are also available.

Training

We always provide comprehensive on-site training to key users of our installed systems and, where required, for our portable systems too. This ensures you get the most from your installation.

Future Proof

We keep ourselves abreast of emerging technologies and ensure they are included, where appropriate, within our designs. This means that MP3, Blu-ray and digital media players, tablets and iPads can be easily integrated into our systems.

If you would like one of our team to visit you for a free discussion about your requirements please contact us and we will arrange a time that is convenient for you.
